Relevant Experience

Full Stack Developer @ Resimator Oy

Jan 2019 – Dec 2022

- ▶ Worked with a variety of different languages, and frameworks such as JavaScript, TypeScript, React, React Native, Next.js, Angular, and Laravel.
- ▶ Led development of the whole front-end codebase of Meeteo.io, written from scratch upon React themed with Material-UI and React Redux centralizing application state.
- ▶ Integrated Jitsi IFrame API into Meeteo.io which enabled to host and provide secure video conferences
- ▶ Implemented scalable modules to manage smart screens and self-service kiosk platforms with Kioskcloud.io.
- ▶ Contributed extensively to both front-end and back-end codebases of Resimator's property management platform built upon Angular and Laravel.

Software Engineer @ Amnil Technologies

Dec 2016 - Dec 2018 // Manbhawan, Lalitpur

- ▶ Built and shipped multiple cross-platform mobile apps for Android and iOS with Ionic Framework + Angular
- ▶ Worked closely with designers and project managers to build multiple CMS-ified websites using CodeIgniter PHP and Wordpress.
- ▶ Architected and implemented REST API along with Swagger UI for The Yayos iOS app, written in a custom MVC PHP framework.
- ▶ Clients included Yamaha Nepal, Prabasi ko Saath, Sipradi Companies, Nabil Investment Banking, Bank of Kathmandu, and more.

Software Developer (PHP) @ Improvement Company Nepal

June 2016 - Dec 2016 // Kalika Marg, Lalitpur

- ▶ Engineered and maintained major features of ICN LIMS (Laboratory Info Management System); a modern software solution for Central Veterinary Laboratory Kathmandu, Nepal built using CodeIgniter, PHP, MYSQL, JQuery, JavaScript, HTML, and CSS.
- ▶ Created modules for ICN PTS (Project Tracking System); a web application that records the progress of different processes such as claims, sales, file records of an organization.
- ▶ Interfaced with clients, providing training sessions with adequate resources to accommodate needs of end-users as much as possible.

Software Development Studio Trainee @ Grafi Offshore

Sep 2015 - June 2016 // Sanepa Heights Rd, Lalitpur

- ▶ Developed and maintained code for in-house projects primarily using PHP, HTML, CSS, JavaScript, and jQuery.
- ▶ Gained experience and exposure to a blend of scrum and kanban agile methodology with typical scrum ceremonies like stand-ups, sprint reviews, sprint planning, and sprint retrospective.
- ▶ Participated in understanding a legacy codebase that helped my debugging skills skyrocket and cultivate the right attitude for endless refactoring possibilities.
